Installation Instructions

Installation Steps

Magento > 1.4

1. Download the extension from My Account -> My Downloadable Products section of store.cueblocks.com. It will be a .tgz extension
2. Log into your Magento Store Admin and go to System > Tools > Compilation tab. Please disable compilation if it is enabled.
3. Now, go to System -> Magento Connect -> Magento Connect Manager
4. Login to Connect Manager with credentials of admin.
5. In 'Direct Package file' tab, choose file to upload and upload the file.
6. Click on upload. It will automatically install the package.
7. Log out of Magento admin and login again. Go to Magento admin -> Catalog -> Magento XML Sitemap Generator & Splitter - if you can't see this tab, go to step 8, else step 9 directly.
8. Refresh Magento cache. NOTE: Skip this if you can already see Magento admin -> Catalog -> Magento XML Sitemap Generator & Splitter.
9. Now generate sitemaps from Magento admin -> Catalog -> Magento XML Sitemap Generator & Splitter
10. If Step 2 was performed and you disabled compilation, go back to System > Tools > Compilation tab and enable compilation again.

Magento <= 1.4

1. Download the extension from My Account -> My Downloadable Products section of store.cueblocks.com. Unzip the folder to any location of your machine.
2. Log into your Magento Store Admin and go to System > Tools > Compilation tab. Please disable compilation if it is enabled.
3. Go to your Magento root directory via FTP/sFTP and copy and paste content of unzipped folder to your Magento root directory. It will automatically move files to correct folders (app and skin and inner folders)
4. Logout if already logged into your Magento Admin and Login again to Magento admin. Go to Magento admin -> Catalog -> Magento XML Sitemap Generator & Splitter - if you can't see this tab, go to step 5, else step 6 directly.
5. Refresh Magento cache. NOTE: Skip this if you can already see Magento admin -> Catalog -> Magento XML Sitemap Generator & Splitter.
6. Now generate sitemaps from Magento admin -> Catalog -> Magento XML Sitemap Generator & Splitter
7. If Step 2 was performed and you disabled compilation, go back to System > Tools > Compilation tab and enable compilation again.
